

Ticonderoga Central School District

DISTRICT – WIDE SCHOOL SAFETY PLAN

Project SAVE (Safe Schools Against Violence in Education)

Commissioner’s Regulation 155.17

Introduction

Emergencies and violent incidents in school districts are critical issues that must be addressed in an expeditious and effective manner. Districts are required to develop a District-wide school safety plan designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of the District with local and county resources in the event of such incidents or emergencies. The District-wide plan is responsive to the needs of all schools within the district and is consistent with the more detailed emergency response plans required at the school building level. The District-wide School Safety Plan provides the framework for the Building-level Emergency Response Plan.

Districts stand at risk from a wide variety of acts of violence, natural, and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (SAVE) law. Project SAVE is a comprehensive planning effort that addresses mitigation/prevention, preparedness, response, and recovery with respect to a variety of emergencies in each school district and its schools.

The Ticonderoga Central School District, supports the SAVE Legislation and intends to facilitate the planning process. The Superintendent of Schools encourages and advocates on-going District-wide cooperation and support of Project SAVE.

Section I: General Considerations and Planning Guidelines

A. Purpose

The District-wide School Safety Plan was developed pursuant to Commissioner’s Regulation 155.17. At the direction of the Board of Education, the School Superintendent appointed a District-wide Health & Safety Team and charged it with the development and maintenance of the District-wide School Safety Plan.

B. Identification of School Teams

The District has created a District-wide School Safety Team who will receive input from but not limited to, representatives of the: Superintendent of Schools, Director of Operations and Maintenance, School Business Official, Secretary to the Superintendent, Director of Food Services, Director of Transportation, Building Principal(s), Local Law Enforcement, Teacher(s), Parent(s), Student(s), Local Emergency Responder(s).

C. Concept of Operations

- The District-wide School Safety Plan is directly linked to the individual Building-level Emergency Response Plans for each school building. Protocols reflected in the District-wide School Safety Plan guides the development and implementation of individual Building-level Emergency Action Guides.
- In the event of an emergency or violent incident, the initial response to all emergencies at an individual school is by the Building Crisis Team.
- Upon the activation of the School Emergency Response Team, the Superintendent of Schools or his/her designee is notified and, where appropriate, local emergency officials are also notified.
- Efforts may be supplemented by County and State resources through existing protocols.

D. Plan review and public comment

- This plan is reviewed and maintained by the District and reviewed on an annual basis.
- Pursuant to Commissioner's Regulation 155.17 (e) (3), this plan was available for public comment 30 days prior to its adoption. The district-wide and building-level plans were originally adopted in 2001-2002, by the School Board after one public hearing that provided for the participation of school personnel, parents, students and any other interested parties. The plan was formally adopted by the Board of Education.
- While linked to the District-wide School Safety Plan, the Building-level Emergency Response Plans is confidential and shall not be subject to disclosure under Article 6 of the Public Officers Law or any other provision of law, in accordance with Education Law Section 2801-a. The District and the Board of Education review the Building-level Emergency Action Guides yearly.
- The District-wide School Safety Plan is posted on the district's website as requested by the New York State Education Department.

NOTE: Building-level Emergency Response Plans are supplied to both local and State Police within 30 days of adoption.

The District has many Board of Education (BOE) policies that support school safety, including but not limited to:

- Bomb Threats,
- Code of Conduct,
- Student Conduct and Discipline,
- Emergency Planning,
- Firearms in Schools/Gun Free Schools,
- Project SAVE,
- Internet Content Filtering/Safety,
- Security/Safety,

Section II: General Emergency Mitigation, Prevention and Response Planning

The District emergency preparedness includes mitigation and prevention to decrease the likelihood of an emergency and to reduce losses or damage should one occur. Mitigation involves the identification risks and vulnerabilities, an assessment of resources and facilities, identification of stakeholders including knowledgeable and collaborative emergency responders and mental health resources, and the communication process. Preparedness includes ensuring policies and protocols are in place as well as the readiness and knowledge to respond. This involves clarifying team member roles, having the

incident command system (ICS) in place, continuous training on ICS and the plan procedures, and conducting exercises and drills.

Response occurs when the plan is activated and involves the action to contain and resolve a crisis. The ICS plan in place is activated as needed to promote effective decision-making. Consistent communication is maintained with staff, students, family and media, actions are documented and after-action briefings are conducted. Emergency response planning has proceeded with the assistance of the Champlain Valley Educational Services BOCES Risk Management Service and coordinated at the District level by the Superintendent. Development of the plan has included involvement of the local police, fire and rescue squad personnel. The District emergency response plan and the building plans linked to this plan use the incident command system. Staff has been identified at each building to assume roles in the incident command structure in the event of an emergency. Assignments, roles and procedures are adjusted on the basis of the exercises. The plan is further adjusted annually using exercises to test potential for emergency response. District and building plans include:

A. Identification of sites of potential emergency, including:

- Detailed plans for each school building;
- The location of potential command and evacuation sites; primary and secondary for each site;
- The kinds of action to be taken in the event of emergency, and
- The potential internal or external hazards or emergency situations.

B. Plans for taking the following actions in response to an emergency where appropriate, including but not limited to:

- School cancellation
- Early dismissal
- Evacuation (before, during and after school hours, including security during evacuation and evacuation routes)
- Lockdown/Lockout
- Sheltering sites (internal and external)

Emergencies include, but are not limited to:

Threats of Violence	Intruder
Hostage/Kidnapping	Explosive/Bomb Threat
Natural/Weather Related	Hazardous Material
Civil Disturbance	Biological
School Bus Accident	Radiological
Gas Leak	Epidemic

Others as determined by the Building-level School Safety Team

C. The identification of District resources which may be available for use during an emergency, including the identification of personnel and other resources.

D. Description of procedures to coordinate the use of school District resources and manpower during emergencies, including:

- Identification of the officials authorized to make decisions, and
- Identification of the staff members assigned to provide assistance during emergencies

E. Procedures for annual multi-hazard school training for staff and students, including the strategies for implementing training related to multi-hazards. These are conducted through a series of staff and student orientation exercises at the beginning of each school year and several times during each year.

F. Procedures for the review and conduct of drills and other exercises to test components of the emergency response plan, including the use of tabletop exercises and drills, in coordination with local and county emergency responders and preparedness officials.

Section III: Responding to Threats and Acts of Violence

Both building and District emergency response plans use the incident command system to identify and respond to anticipated or unanticipated threats or acts of violence. Plan appendices include the following:

A. Policies and procedures for responding to implied or direct threats of violence by students, teachers, other school personnel and visitors to the school.

B. Policies and procedures for responding to acts of violence by students, teachers, other school personnel and visitors to the school, including consideration of zero-tolerance policies for school violence.

C. Policies and procedures for contacting appropriate law enforcement officials in the event of a violent incident. The appropriate procedure will always use the 911 emergency call system.

D. Identification of appropriate responses to emergencies, including protocols for responding to:

- Bomb threats
- Hostage takings
- Intrusions
- Kidnappings

E. Policies and procedures to contact parents, guardians or persons in parental relation to the students in the event of a violent incident or an early dismissal.

Section IV: Communication with Others

Community based emergency response services (police, fire and rescue squad) participate in the development, tabletop review and review of respective building plans. Copies of each written plan are made available to emergency services.

A. A 911 protocol is used in every instance to request emergency assistance.

B. Written copies of the plans will be forwarded to county and town officials explaining the role that emergency response agencies have played in the development of the plan and seeking advice, suggestions or other feedback. This includes the discussion about the county officials responsible for implementation of Article 2-B of the Executive Law.

C. If a disaster occurs that impacts the District, all internal communications will run through the District office whose staff will activate building and District level emergency response teams as necessary. The District office will inform all educational agencies within the school district of such a disaster.

D. Maintenance of relevant information included in the confidential Building-level Plans and for each educational agency* located in the school district, include information on:

- School population
- Number of staff
- Transportation needs
- Business and home telephone numbers of key officials of each such educational agency

* **Educational agencies means** public and nonpublic elementary and secondary schools, public and private nursery schools, approved private schools for the education of students with disabilities as defined in section 200.1(d) of this Title, and public and private schools for the education of preschool children with disabilities.

Section V: Prevention and Intervention Strategies

The District strives to provide and enhance emergency and violence prevention and intervention strategies. Such strategies include improving communications among students and between students and staff, reporting of potentially violent incidents and establishing reporting mechanisms for school violence.

A. The school climate is viewed as an important part of school safety. The Dignity for All Students Act supports an environment free of harassment and discrimination. The District provides training around bullying prevention through curriculum integration. The District supports intervention and defines Disciplinary Consequences/Remediation. If appropriate, disciplinary action will be taken by the administration in accordance with the District's Code of Conduct, as applicable. If the behavior rises to the level of criminal activity, law enforcement will be contacted.

B. Policies and procedures related to school building security, including, where appropriate, the use of school safety officers and or/security devices or procedures. A School Resource Officer (SRO) may be utilized when the resource is available.

C. Policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including, but not limited to:

- The identification of family, community and environmental factors to teachers, administrators, parents and other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information

D. Appropriate prevention and intervention strategies and strategies for improving communication among students and between students and staff and reporting of potentially violent incidents, such as the establishment of:

- Anti-Bullying Programs
- Suicide Prevention Training and Programs

- Youth-run programs
- Conflict resolution
- Others based on district need

E. Description of duties, hiring and screening process, and required training other school safety personnel are maintained in the District Office.

Section VI: Recovery

Recovery addresses the help needed for all involved to heal and to restore the school community to “normal” operations. The District supports the school buildings by deploying District resources that support the Emergency Response Teams and the Post-Incident Response Teams in the affected school(s).

Recovery plans include mental health/emotional recovery, academic, physical and business recovery, and can continue long after the actual emergency. The District has social worker and counselor resources and support systems. The District has the ability to coordinate with school, local, County and State disaster mental health services. The District’s role with mental health services includes looking at the school culture and climate, providing student access to services and following threat assessment procedures.

A. District Support for Buildings

Each Building-level Emergency Response Plan provides resources for supporting the Emergency Response Teams and Post-Incident Response Teams. The District’s Incident Command System (ICS) identifies back-ups to relieve team members. This provides team members the opportunity to rotate personnel, to fill in if assigned personnel are unavailable and to debrief in a supportive environment.

The District realizes that some emergencies may overwhelm an individual school’s ability to manage an extreme crisis. If/when a Building-level Emergency Response Team or Post-Incident Response Team is faced with an emergency such as threats of violence or actual violent incidents, the District-wide Emergency Response Team will assist as follows:

- Acting as a sounding board for the building principal/supervisor regarding the implied or direct threats and/or violent acts.
- Assisting in determining the level of threat and appropriate response.
- If safe to do so, sending a District-wide team member to support the Building-level Team(s).
- Monitoring the situation and adjusting the District’s response as appropriate.
- Assisting with parent/guardian, faculty/staff, and media communication.
- Assisting with coordinating building and grounds security in conjunction with local and State Police.
- Assisting with offering a backup Post-Incident Response Team (i.e., another school team and/or an outside group) if needed.
- Offering debriefing sessions as needed working in conjunction with local, County and/or State emergency responders.

B. Disaster Mental Health Services

If/when a Building-level Emergency Response Team or Post-Incident Response Team is faced with an emergency that may overwhelm an individual school's ability to manage an extreme crisis; the District-wide Emergency Response Team will assist as follows:

- If safe to do so, sending a District-wide team member to each affected school/building as a liaison between the school/building and the District Office.
- Activating the District-wide Post-Incident response Team. The District and schools have school counselors, school psychologists, school nurse, and social workers that have local connections to:
 - Neighboring school districts
 - Essex County Department of Mental Health and
 - Essex County Mental Health service providers
- Offering District support and looking for continued feedback from those directly impacted during the incident, with projected plans to assist if needed during heightened stressful times such as a re-occurrence of a similar event and anniversaries of the original event.
- Assisting with parent/guardian, student, and faculty/staff debriefing and/or post-incident crisis intervention. The debriefing is also used in part to evaluate the District's plan for possible revisions. If needed, assisting in contacting additional outside mental health resources such as the National Organization for Victim Assistance (1-800-try-nova; www.try-nova.org).
- Assisting the schools with written statements going out to faculty/staff, parents/guardians, press releases and media requests through the District's Public Information Officer and Communications Office.

The District supports the recovery phase and reevaluates current multi-hazard and violence prevention practices and school safety activities.

Section VII: NEW YORK SECURE AMMUNITION AND FIREARMS ENFORCEMENT ACT (NYSAFE): IMPACT ON SCHOOL DISTRICT BUILDING AID

The District will provide all facilities with security features sufficient to protect the occupants in case of an intruder and/or unauthorized visitors.

The 2013 NYSAFE Act enhances NYS Education Law for eligible expenses incurred beginning in the 2012-2013 school year and through the 2014-2015 school year. The purpose of this is to allow a school District to purchase and install security systems and devices separate from traditional capital construction projects and in student-occupied buildings in order to receive enhanced building aid for the purchase of approved security cameras and other SED-approved security devices such as electronic security systems and hardened doors.

Pandemic Planning

Our District-Wide School Safety Plan is based on addressing the four phases of emergency management (Prevention/Mitigation; Preparedness; Response; Recovery). This Pandemic Plan is built upon the components already existing in our District-Wide School Safety Plan that also incorporates our Building-Level Emergency Response Plans. It is a flexible Plan developed in collaboration with a cross-section of the school community and public health partners and will be updated regularly to reflect current best practices. The Plan will be tested (exercised) routinely as part of the overall exercise of the

District-Wide School Safety Plan. The District-Wide School Safety Team assumes responsibility for development and compliance with all provisions of this Plan and implementation at the building level through the Building-Level Emergency Response Team.

Prevention/Mitigation

We will work closely with the Essex County Department of Health to determine the need for activation of our Plan. The following procedures will be followed by school nurses for reporting communicable disease, including influenza, and communicating with the Health Department:

The Essex County Department of Health will monitor county-wide cases of influenza and inform school districts as to appropriate actions.

Our **Nurse** will help coordinate our Pandemic planning and response effort. This person will work closely with the District-wide School Safety Team that has responsibility for reviewing and approving all recommendations and incorporating them into the District-Wide School Safety Plan. The school district medical director and nurses will be vital members of the Safety Team. Because of the potential importance of technology in the response effort (communication and notification) the school district technology director will also be an important Team member. The Business Administrator, Director of Facilities and Principals will also be vital to the planning effort. Other non-traditional individuals may also be required to be part of the Team.

The District-wide School Safety Team will review and assess any obstacles to implementation of the Plan. The CDC School District Pandemic Influenza Planning Checklist will be reviewed annually for this determination and has considered issues related to Planning and Coordination; Continuity of Student Learning; Core Operations; Infection Control Policies and Procedures; and Communication.

The school district will emphasize hand-washing and cough/sneezing etiquette through educational campaigns including the CDC Germ Stopper Materials; Cover Your Cough Materials; It's a SNAP Toolkit; and the NSF Scrub Clean; which can all be accessed at <http://www.cdc.gov/flu/school/>.

We will educate and provide information to parents, staff, and students about our Pandemic Plan and about how to make an informed decision to stay home when ill. We will utilize our website, postings and direct mailings for this purpose. Preparedness The Essex County Department of Health Services, Essex County Sheriff, Department of Mental Health will collaborate to assure complementary efforts. The District-wide Command Center will be at District Office with the alternate at Ticonderoga CSD Elementary School and will be activated at the direction of the School District Incident Commander.

We have established our District-wide Incident Command Structure as follows:

- Primary Incident Coordinator - Superintendent, (518) 585-7400 Ext. 1135
- Backup Incident Coordinator – Business Administrator, (518) 585-7400 Ext. 1134
- Director of Facilities, (518) 585-7400 Ext. 1141
- Logistics – Director of Transportation, (518) 585-6256
- Plan & Intel – Director of Special Services, (518) 585-7400 Ext. 2220
- Adm/Fin. – Business Administrator, (518) 585-7400 Ext. 1134
- Public Info - Superintendent, (518) 585-7400 Ext. 1135
- Safety – Director of Special Services, (518) 585-7400 Ext. 2220
- Incident Log/Scribe o Superintendent's Secretary, ((518) 585-7400 Ext. 1135

Building-level Command Posts and Incident Command Structures are defined in the Building-Level Emergency Response Plans. Our Incident Command System will complement and work in concert with the Federal, State, and Local Command Systems.

Communication will be important throughout a pandemic outbreak. It will be necessary to communicate with parents, students, staff, and the school community. Communication methods may include: school postings (ParentSquare); general mailings; e-mails; special presentations; phones and cell phones, reverse 911 systems, and the public media. A school district Public Information Officer (PIO) has been designated to coordinate this effort and act as the central point for all communication. The PIO will also retain responsibility for establishing and maintaining contact with accepted media partners. The PIO will work closely with our Technology Director to assure proper function of all communication systems. This coordination will also help assure that as many redundant communication systems as possible are available. Our Information Systems Office will test our emergency communication systems annually.

Continuity of operations and business office function could be severely impacted by a loss of staff. As such, our plan will include procedures for maintaining essential functions and services.

This will include:

- Overall Operations – we have defined the following decision- making authority for the district (Superintendent, Business Administrator, Director of Special Services and Jr. Sr. High School Principal). Recognizing the need for these essential individuals to have frequent communication we have established as many redundant communication systems as possible. Our primary communication will be through our normal phone system followed by hand held radios, cell phones and phone mail, e-mail, district automated system (ParentSquare).
- The Business Office is essential for maintaining overall function and facilities operation. Back-up personnel will be important to maintain purchasing, payroll, and operations responsibilities. We have defined the following job titles for having back-up responsibility in these areas: Transportation Supervisor, Facilities Director, Instructional Technology Director, Purchasing Agent, Business Administrator and Transportation Senior Account Clerks. Recognizing the need for job cross-training, we have trained individuals with the following job titles: We have also established the ability to maintain these essential functions off-site from remote locations as follows: At the current time, the Elementary School (alternative: North County Community College) will be our off-site location. Off-site function will be tested annually.
- Maintenance of facilities will be difficult with a reduced or absent maintenance staff. The Director of Facilities or back-up designee (Maintenance Mechanic) will keep the business office informed of such status and of the point at which buildings can no longer be maintained. The Director of Facilities has provided building administrators with procedures for maintaining essential building functions (HVAC system operation, alarms, security, etc. along with a list of telephone numbers of outside companies and alternates for repair and maintenance of these systems). If necessary, we will pool maintenance staff to form a mobile central team to help assist in essential building function and cleaning of critical areas such as bathrooms. Teachers may be asked to assist in effort. If necessary, we may provide spray bottle sanitizers for each classroom teacher for doorknob and desktop disinfection only. Desktops will be misted with the provided disinfectant and left to dry. Training for teachers on this process will be provided annually.
- Principals will be essential in monitoring absenteeism and assuring appropriate delegation of authority. Changes to district policies and procedures to reflect crisis response may become necessary and will be implemented. The Principals will provide cross-training of staff to ensure essential functions annually to help develop the Plan, in conjunction with all bargaining units, for emergency use of personnel in non-traditional functions and changes in the normal work day such as alternate or reduced work hours, working from home, etc.

Continuity of instruction will need to be considered in the event of significant absences or school closure. Restructuring of the school calendar may become necessary. We will work closely with the New York State Education Department on this potential result throughout the crisis period. Some of the alternate learning strategies we have implemented to be used in combination as necessary including:

- Hard copy, self-directed lessons
- Use of mobile media storage devices for lessons (CDs, Jump Drives, IPODS)
- On-line instruction; on-line resources; on-line textbooks
- Communication modalities for assignment postings and follow-up: telephone; Postal Service; cell phone, cell phone mail, text messages; e-mail; automated notification systems; website postings

We have obtained input from curriculum staff in development of strategies & have tested these methods on an annual basis.

Response

The District-Wide School Safety Team will meet to determine the need for activation of a pandemic response based on internal monitoring and correspondence with the Essex County Department of Health and other experts. Each Building-Level Emergency Response Team will be informed that the Plan has been activated.

The entire Incident Command Structure at both the District and Building level will be informed that the response effort has been enacted. These individuals will meet to discuss the Plan's activation & review responsibilities & communication procedures.

The PIO will work closely with the Director of Technology to re-test all communication systems to assure proper function. The District-wide School Safety Team and Building-Level Emergency Response Teams will assist in this effort.

Based on the latest information from collaboration with our partners, and to send a message consistent with public health authorities, the PIO will utilize the communication methods previously described to alert the school community of the activation of our District-Wide School Safety Plan as it specifically applies to pandemics.

The Business Administrator will meet with staff to review essential functions and responsibilities of back-up personnel. Ability to utilize off-site systems will be tested. The Business Administrator will monitor utilization of supplies, equipment, contracts, and provided services and adjust as necessary.

Essential positions will include: those responsible for building maintenance and security; food service personnel for meal preparation, bus drivers and aides for school work and meal deliveries; business office staff for supply procurement and payroll; administrative personnel for coordination, safety and oversight.

The Director of Facilities will meet with staff and monitor ability to maintain essential function. The Director of Facilities will review essential building function procedures with the Principal and command chain. Sanitizing procedures will be reviewed with teachers. The Facility Director will work closely with the Business Administrator or designee to implement different phases of the Plan as necessary.

The Business Administrator/Superintendent will meet with staff to review essential functions and responsibilities of backup personnel. The Business Administrator will monitor absenteeism to assure

maintenance of the Command Structure and possible need to amend existing procedures. Staggered shifts will be implemented to reduce contact.

Based on recommendations from Local and State Authorities, schools may be closed. Our Plan for continuity of instruction will be implemented as previously described.

Recovery

Re-establishing the normal school curriculum is essential to the recovery process and should occur as soon as possible. We will work toward a smooth transition from the existing learning methods to our normal process. We will use all described communication methods and our PIO to keep the school community aware of the transition process.

We will work closely with NYSED to revise or amend the school calendar as deemed appropriate. We will evaluate all building operations for normal function and re-implement appropriate maintenance & cleaning procedures.

Each Building-Level Post-incident Response Team will assess the emotional impact of the crisis on students and staff and make recommendations for appropriate intervention.

The District-wide School Safety Team and Building-Level Emergency Response Teams will meet to de-brief and determine lessons learned. Information from the PIO, Business Office, and the Director of Facility will be vital to this effort. The District Wide School Safety Plan and Building-Level Emergency Response Plans will be revised to reflect this.

Curriculum activities that may address the crisis will be developed and implemented.
